

TCONTROL

RC bag for radio transmitter

RADIO BATTERIES ACCESSORIES

Your radio is a precious device of our RC equipment. It is fragile, so it deserves the best protection and an easy way to use as you keep the radio most of the time with you. We have developed the **TControl 100** in such way. It will allow you to carry and protect your radio. But we also pay attention with our design to offer a complete solution with useful options, such as our exclusive «ID numbers» to identify your radio during your race competition.

ORGANIZE, PROTECT AND CARRY

TWINTIP® bags are specially designed and developed for RC models.

They allow you to organize, protect and carry your material and all the accessories through a dedicated bag developed with a technical, functional and comfortable design.

QUALITY AND DURABILITY

TWINTIP® bags are made with the highest grade of quality for all the materials used during the production process.

Our bags are fully padded with high density foam to provide the best protection for your equipment.

antenna «slide'in»

When using your radio with your bag, our exclusive **slide'in system** let your antenna comes out of the bag in a very convenient way.

manual pocket

A dedicated zip pocket has been designed for your radio manual or any other document you want (A5 format).

ID numbers

The ultimate detail, identify your radio during your competition by using our exclusive **ID numbers system** (1 to 10 embroidery velcro numbers removable).

antenna

When you want to store your radio, the antenna is perfectly safe and protected in this dedicated holster.

front pockets

3 pockets 3 specific uses : a zip upper pocket for your quartz, a mesh pocket for your batteries and a another zip pocket for the ID numbers. An additional flap pocket is also available in front of the bag.

radio section

The main compartment allows to store almost all kind of radio transmitter available on the market. The radio is safely locked into the bag with an elastic tape.
