ORGANIZE, PROTECT AND CARRY

TWINTIP® bags are specially designed and developed for RC models.

They allow you to organize, protect and carry your material and all the accessories through a dedicated bag developed with a technical, functional and comfortable design.

QUALITY AND DURABILITY

TWINTIP® bags are made with the highest grade of quality for all the materials used during the production process.

Our bags are fully padded with high density foam to provide the best protection for your equipment.

RC car section

(nano settings)

Store easily 1, 2 or 3 **nano RC cars** with the battery charger into a perfect adjustable and safe dedicated compartment.

(mini settings)

Store easily your **mini RC car** into an adjustable and safe dedicated compartment.

(micro settings)

Store easily your **micro RC car** with the battery charger into a safe dedicated compartment.

left pocket

You can either store the pitstop working carpet included or/and any of your accessories in this pocket.

right pocket

The mesh pocket allows you to store all the batteries (car, radio). Where as the inside zip pocket keeps on hand and safely all the fragile accessories.

inside pocket

It is up to you with these flexible pockets, we suggest as follow : left flap pocket for the batteries (R3 format) and right mesh pocket for the accessories.

tools section

Keep on hand the essentials and the most used tools. The antenna can also be stored in a dedicated holster if needed.

radio section

Your radio is perfectly stored and protected into this dedicated lower fully padded compartment. Most of the radio in the market can fit in this compartment.
