# ORGANIZE, PROTECT AND CARRY

**TWINTIP®** bags are specially designed and developed for RC models.

They allow you to organize, protect and carry your material and all the accessories through a dedicated bag developed with a technical, functional and comfortable design.

## QUALITY AND DURABILITY

**TWINTIP®** bags are made with the highest grade of quality for all the materials used during the production process.

Our bags are fully padded with high density foam to provide the best protection for your equipment.

### RC car section

(On & Offroad car settings)  
example

Store easily your 1/10 RC car into an adjustable and safe dedicated compartment. Your car is perfectly hold with 2 elastic straps.

### dirt cover

Keep it clean ! Our exclusive «dirt cover» protects your inside bag while your car is dirty.

### manual pocket

A dedicated zip pocket has been designed for your manual or any other document you want (A4 format).

### left pocket

Multi-uses pockets, with 2 mesh pockets for your accessories, plus a phone or audio player pouch. And a specific mesh pocket for the fuel bottle.

### starter

Here is a section dedicated to carry your engine starter box.

### tools section

Keep on hand the essentials and most used tools.

### clips holder

Don't loose any more bobby clips. This dedicated strap allows you to store them while you are working on your RC car.

### tires pocket

This area allows to store your tires (max 8 pièces). Also included, a bag tires cover to protect while the tires are dirty.

### poches rangement

Different right side pockets to store many RC accessories (batteries, slim glow starter, ...)

### radio section

Your radio is perfectly stored and protected into this dedicated lower fully padded compartment. Compatible to fit in with our **TControl 100** radio bag.
